DESCRIPTION

This proposal allows architects, engineers, and land surveyors, whether individuals or corporations, who do not hold a certificate under Chapter 327, RSMo, to enter into contracts to design and build projects. The person or corporation cannot hold itself out for being able to perform those services and the actual work must be performed by persons or corporations holding a certificate to provide architectural, engineering, or land surveying services.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
