Officials from the **Department of Economic Development - Office of Public Counsel** state this proposal does not have a significant fiscal impact on their agency.

Officials from the **Department of Economic Development - Public Service Commission** state that their agency is proceeding with rulemaking collaborative meetings to implement the provision of 386.266 that this bill proposes to delete. This proposed legislation would eliminate the ability for gas utilities to request this type of cost recovery mechanism.

DESCRIPTION

This proposed legislation repeals a provision that currently allows gas corporations to bypass general rate proceedings and directly petition the Missouri Public Service Commission to allow periodic rate adjustments because of the effect of weather or conservation on customers' demand for gas.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
