## FISCAL ANALYSIS

### ASSUMPTION

#### § 640.136 - Public Water Fluoridation:

Officials from the **Department of Natural Resources (DNR)** assume the proposal would not fiscally impact their agency.

In response to the previous version of this proposal, officials from the **Department of Health and Senior Services (DHSS)** assumed this proposal would not fiscally impact their agency.

In response to the previous version of this proposal, officials from the **Cole County Public Water Supply District #3** stated because they do not fluoridate their water, this proposal would have no direct fiscal impact on the water district.

**Oversight** assumes the additional postage and mailing costs related to this proposal are dependent upon a public water system or public water supply district making a decision to make modifications to fluoridation of its water supply. In the event a modification to fluoridation occurs, a notice must be sent to all customers, DNR, and DHSS ninety days prior to any vote on the matter.

**Oversight** has no way of knowing how many water districts and public water systems would make modifications to fluoridation of its water supply.

For the purpose of the fiscal note, **Oversight** assumes no direct fiscal impact on state government and local water supply districts.

**Oversight** notes this proposal contains an emergency clause with an effective date upon passage and approval.

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION
