FISCAL ANALYSIS

ASSUMPTION

Oversight was unable to receive some of the agency responses in a timely manner due to the short fiscal note request time. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

In response to a similar proposal from this session, HB 1592, Oversight received the following responses:

Officials from the **Department of Insurance, Financial Institutions, and Professional Registration (DIFP)** estimated up to 210 amendments to HMO policies due to this legislation. Policy amendments must be submitted to the department for review along with a \$50 filing fee. One-time additional revenues to the Insurance Dedicated Fund are estimated to be up to \$10,500.

Additional staff and expenses are not being requested with this single proposal, but if multiple proposals pass during the legislative session which require policy form reviews, the DIFP will need to request additional staff to handle the increase in workload.

Officials from the **Department of Social Services, MO HealthNet Division, Division of Legal Services**, and the **Missouri Medicaid Audit & Compliance Division**, the **Missouri Consolidated Health Care Plan**, the **Missouri Department of Conservation** and the **Missouri Department of Transportation** each assumed the proposal would not fiscally impact their respective agencies.

Officials from the **Department of Public Safety, Missouri State Highway Patrol** deferred to the Missouri Department of Transportation (MoDOT), Employee Benefits Section for response on behalf of the Highway Patrol. Please see MoDOT's fiscal note response for the potential fiscal impact of this proposal.

Oversight assumes the provisions of this proposal will be effective January 1, 2017, when the new plan year for state employee insurance begins.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Currently, health maintenance organizations have the power to offer health benefit plans which contain variable co-payments. This bill specifies that co-payments may exceed 50% of the total cost of the service except where prohibited by law.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
