FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Health and Senior Services (DHSS)** state this proposal expands eligibility for the Health Professional Student Loan Repayment Program to include psychiatrists. The proposal does not require the DHSS to fund any additional candidates; it only increases the number of applicants that may receive funds.

DHSS notes that funding for the program is composed entirely of Federal grant monies and donations (no General Revenue) and assumes the program will continue to receive the same amount of funding each year. Therefore, DHSS assumes the proposal will have no fiscal impact.

Oversight determined that in FY 2015, 24 applicants received funding through the Health Professional Student Loan Repayment Program. Candidates are chosen based on the area of the state they intend to work. Candidates planning on working in areas with the highest Health Professional Shortage Area (HPSA) scores receive funding first and funds are distributed from highest to lowest HPSA scores until funds run out.

Officials from the **Department of Higher Education** and the **Department of Insurance, Financial Institutions and Professional Registration** each assume the proposal would not fiscally impact their respective agencies.

FISCAL DESCRIPTION
