FISCAL ANALYSIS

ASSUMPTION

Due to time constraints, Oversight originally prepared a fiscal note for this bill without all of the agency responses. Oversight has since obtained the agency responses and upon review of those responses, believes the original fiscal note should be updated. Therefore, this fiscal note updates the original by providing agency responses.

Officials at the **Office of the State Courts Administrator** assume this proposed legislation extends expiration dates for Statewide Court Automation Fund and the Basic Civil Legal Services Fund. Section 476.055 would extend the Statewide Court Automation fund until September 1, 2023. The fund is used for basic ongoing maintenance of the technological needs of the courts statewide and constitutes approximately 45 percent of our total automation expenditures, with the rest coming from general revenue. If the fund would be allowed to sunset in September 2018, the judiciary would anticipate a budget request for general revenue of approximately \$5 million and 34 FTE in fiscal 2019 and each year after that.

Section 476.650 would extend the Basic Civil Legal Services fund to December 31, 2025. The funds are distributed to the four Federal Legal Services Corporation in the State of Missouri to provide legal services in non-criminal matters to eligible low income persons. Over the last three years the fee has raised approximately \$2.9 million per year. If the fund would be allowed to sunset in December 2018, the judiciary would anticipate a budget request for general revenue of approximately \$2.9 million in fiscal 2019 and each year after that.

Officials at the **Office of the State Treasurer** assume no fiscal impact from this proposal.

Oversight notes this proposal extends the expiration dates on the Statewide Court Automation Fund and the Basic Civil Legal Services Fund to September 1, 2023 and December 31, 2025 respectively.
