FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This bill changes the term of office for directors of boards of Community Improvement Districts that are political subdivisions. Currently, half of the directors serve two-year terms and the

other half serve four-year terms. If there is an odd number of directors elected, the director receiving the least number of votes will serve a two-year term. For districts formed on or after the effective date of the bill, the bill requires that half of the directors will serve two-year terms and half will serve at least three-year but no more than four-year terms. The bill makes the corresponding change for boards of directors that are appointed by municipalities.

This proposal has been amended to grant a district the power to repair, restore, or maintain any abandoned cemetery on public or private land within the district.

Current law requires that members of the board of directors of any industrial development corporation be a registered voter and, for at least five years, a taxpayer in the county or city. This bill makes this requirement optional for industrial development corporations wholly in third or fourth classification counties. It also lowers the number of years a director must be a resident taxpayer from five years to one year.

The bill has an emergency clause.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
