FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety – Missouri State Highway Patrol** assume the proposed legislation would have no fiscal impact on their agency.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Office of Prosecution Services** assume prosecutors could absorb the costs of the proposed legislation within existing resources.

Officials from the **Office of State Public Defender** assume existing staff could provide representation for those few cases arising where indigent persons were charged with a crime motivated by race, color, religion, national origin, sex, sexual orientation, or disability of the victim where enhanced punishment is sought by the prosecutor. Due to the increased jail time, fewer indigent persons will plea to the charges and a few more trials are likely. Passage of more than one bill increasing penalties on existing crimes or creating new crimes would require the State Public Defender System to request increased appropriations to cover the cumulative cost of representing indigent persons accused in the now more serious cases or in the new additional

cases.

ASSUMPTION (continued)

Officials from the **Department of Corrections (DOC)** assume they cannot currently predict the number of extended commitments which may result from the enhancements of the offense(s) outlined in this proposal. An increase in commitment time depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC or are serving extended sentences due to the provisions of this legislation, the DOC will incur a corresponding increase in operational cost either through incarceration (FY02 average of \$35.52 per inmate, per day or an annual cost of \$12,965 per inmate) or through supervision provided by the Board of Probation and Parole (FY02 average of \$3.10 per offender, per day or an annual cost of \$1,132 per offender).

At this time, the DOC is unable to determine the number of people who would be convicted under the provisions of this bill and therefore the number of additional inmate beds that may be required as a consequence of passage of this proposal. Estimated construction cost for one new medium to maximum-security inmate bed is \$55,000. Utilizing this per-bed cost provides for a conservative estimate by the DOC, as facility start-up costs are not included and entire facilities and/or housing units would have to be constructed to cover the cost of housing new commitments resulting from the cumulative effect of various new legislation, if adopted as statute.

In summary, supervision by the DOC through probation or incarceration would result in additional unknown costs to the department. Eight (8) persons would have to be incarcerated per fiscal year to exceed \$100,000 annually. Due to the narrow scope of the crime(s), it is assumed the impact would be less than \$100,000 per year for the DOC.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

The proposed legislation would add arson to a list of specific crimes, which if motivated by race, color, religion, national origin, sex, sexual orientation, or disability of the victim, would receive enhanced punishment.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
