**FISCAL ANALYSIS**

**ASSUMPTION**

Officials of the **Department of Transportation (MoDOT)** assume the proposal would authorize the Missouri Highways and Transportation Commission to construct and operate toll facilities. There would be no effect on MoDOT until the toll facilities were defined by law and until the Department of Transportation decided to pursue a toll facility.

**Oversight** notes that the proposal would authorize the Commission to issue toll-facility revenue or refunding bonds. It also specifically states that bonds issued would not be considered obligations of the state. Proceeds from the sale of such bonds as well as tolls and other revenues derived from any toll facilities constructed are to be credited to toll facility funds and used for payment of principal and interest on the bonds, as well as for the payment of costs associated with the establishment of toll facilities. The proposal does allow the Commission to transfer funds from the state road fund in the event revenues from a toll facility are inadequate, if necessary to meet current bond principal and interest obligations, or to initially pay for feasibility studies for and designs of toll facility projects. Any transfers from the state road fund are to be repaid with interest.

**Secretary of State** officials stated that advertisement costs for the proposal would be \$3,475 per column inch for three printings of the text of the proposal, the introduction, fiscal note summary, and affidavit. The proposal would be on the ballot for the November 2004 general election.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal would allow the Highways and Transportation Commission to conduct feasibility studies, fund, design, acquire, construct, maintain and operate toll facilities.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
