FISCAL ANALYSIS

ASSUMPTION

Officials of the following agencies indicated that the proposal would have no fiscal impact: **Department of Natural Resources, Department of Elementary and Secondary Education, House of Representatives, Department of Transportation, Department of Public Safety - State Emergency Management Agency, Division of Fire Safety, State Water Patrol and State Highway Patrol.** (Patrol officials did note that the Highway Patrol Academy Fund still contains money which is used to pay expenses related to operation of the Academy.)

Officials of the **Missouri Veterans Commission** noted, in response to a similar proposal, that their agency would save about \$400 per year due to not having to send annual reports to about fifty (50) organizations.

Officials of the **Secretary of State (SOS)** stated, in response to a similar proposal, that this proposal would require several state agencies to change or rescind rules. Based on experience with other divisions, the rules, regulations and forms issued affected agencies could require as many as 42 pages in the *Code of State Regulations*. For any given rule, roughly half again as many pages are published in *Missouri Register* as in the *Code* because cost estimates and fiscal notes are not repeated in the *Code*. The estimated cost of a page in the *Missouri Register* is \$23.
ASSUMPTION (continued)

The estimated cost of a page in the *Code of State Regulations* is \$27. The estimated cost of publication in FY 2005 for this proposal is \$2,583. Actual cost could be more or less and costs in future years would depend upon frequency and length of rules filed, amended, rescinded or withdrawn.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years.

Officials of the **Division of Legislative Research** note that the proposal could add pages to the annual Supplement to the Revised Statutes of the State of Missouri, but would save pages at the next full printing of the Revised Statutes.
