FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Agriculture** assume no fiscal impact.

Officials from the **Office of the Secretary of State (SOS)** assume this bill designates a new state symbol. This legislation may result in revisions to the School/Information Packet (state symbols brochure and coloring book) and the Official Manual (state symbols section) as published by the Secretary of State. Based on current content and distribution of the School Information Packet as published, the Secretary of State's Office would revise the materials of the packet to include the newly designated state symbol. The estimated cost to revise the packet for the approximately 100,000 packets distributed each fiscal year would be \$0.02 per packet. Based on current content and layout of the state symbols section of the Official Manual, the Secretary of State's Office would revise this section to include a photo of the symbol and may result in additional page(s) to the book. The estimated cost of revising this section of the Official Manual would be \$0.03 per book.

Oversight assumes the SOS could absorb the costs of printing and distributing packets and sections of the State Manual related to this proposal. If multiple bills pass which require the printing and distribution of packets at substantial costs, the SOS could request funding through the appropriation process.
