FISCAL ANALYSIS

ASSUMPTION

Section 210.205:

Officials from the **University of Missouri, Missouri House of Representatives** and the **Missouri Senate** each assume the proposal would have no fiscal impact on their respective agencies.

In response to a similar proposal from 2008 (SB726), officials from the **Missouri State Treasurer** assume the proposal would have no fiscal impact on their agency.

Officials from the **Department of Mental Health (DMH)** states other than collaborating with the Department of Social Services, Department of Health and Senior Services and the Department of Elementary and Secondary Education, this proposed legislation places no requirements upon the DMH. DMH collaborates with other state agencies in many areas and expects no significant cost to the Department associated with this bill.

Officials from the **Department of Elementary and Secondary Education (DESE)** states DESE is to work in collaboration with the Department of Social Services, the Department of Health and Senior Services and the Department of Mental Health to develop a voluntary quality rating system for child care facilities and early childhood programs operated in this state. DESE anticipate cost relating to travel, employee time, and resource materials; however, DESE does not expect these costs to be significant.

Officials from the **Department of Health and Senior Services** state the following:

Sections 210.205. 1. - 3. - Based on discussion with Department of Social Services (DSS), all costs related to the development of the rating system will be included in the DSS fiscal notes response. The Department assumes that any collaboration between the DHSS and the DSS required by the legislation would be accomplished with existing staff and resources. DHSS assumes no cost to develop the rating system.

Section 210.205.4. - The legislation requires DSS to administer the newly created "Early Childhood Program Quality Improvement Grant Fund". The DHSS assumes no cost related to this fund.

ASSUMPTION (continued)

Section 210.205.5 - Based on discussion with DSS, their costs related to developing the rating system will include the costs of collection, development and distribution in (1) and (2). Subsection (3) requires that the provider ratings be posted on the Internet. Based on information received from OA ITSD, \$50,000 is included as an estimate of the cost to post this information on the DHSS Internet site. It is assumed that this cost would be paid from General Revenue during FY 2010.

Section 210.205.6 - The legislation requires DSS to promulgate rules. The DHSS assumes no cost related to rules.

Potential Future Costs - Implementation of this legislation might result in an increase in the number of licensed facilities with a corresponding increased inspection workload for the Section for Child Care Regulation. If such an increase were to occur, the program would ask for additional staff through the budget process at a later date.

The increased demand for required annual training hours for licensed providers has the potential to exceed the current training capacity of the Missouri Child Care Resource and Referral Network (MOCCRRN). If such an increase were to occur, the program would ask for additional funding through the budget process at a later date.

Officials from the **Department of Social Services** state the following:

Cost for rating system based on University of Missouri (UM) estimates. The proposed process increases the number of programs rated each year until FY 14 when 70% of the programs will be rated. No state with a voluntary Quality Rating System (QRS) has seen participation exceed 70%. The improvement fund calculation has been broken out as it is subject to appropriation. The Children's Division assumes that the licensed child care programs receiving quality improvement funds or services that are mandated to be rated by July 1, 2012, will be included in the first 3 years of implementation. The projected cost per year is:

<u>Year</u>	<u>Percentage Rated</u>	<u>QRS Cost</u>	<u>Improvement Fund</u>	<u>Total</u>
FY10	10%	\$0 to \$714,301	\$0	\$714,301
FY11	27%	\$0 to \$1,196,124	\$0 to \$2,038,000	\$1,196,124 to \$3,234,124
FY12	43%	\$0 to \$1,690,366	\$0 to \$3,310,000	\$1,690,366 to \$5,000,366
FY13	57%	\$0 to \$2,181,936	\$0 to \$4,330,000	\$2,181,936 to \$6,511,936
FY14	70%	\$0 to \$2,684,507	\$0 to \$5,348,000	\$2,684,507 to \$8,032,507

ASSUMPTION (continued)

This methodology changed from the previous year fiscal note. It has been determined that the child care providers will be reviewed every 18 months instead of 12 months. This resulted in a significant reduction in the cost to implement the QRS.

No cost for the tiered subsidy system is shown, but is anticipated to be several million dollars. Current subsidy system will need to be revamped. Factors that may influence cost are adjustments to parental sliding fee/co-payment, actual cost variances between the various QRS levels, income eligibility level increases, etc. Since the subsidy will only be implemented after passage of a resolution by the General Assembly, no cost is shown in the fiscal note.

One FTE for QRS UMC grant oversight, i.e. contract development, monitoring, reviewing reporting and outcome requirements and statistical data, liaison between DSS and grantee including coordination with other DSS programs, providing technical assistance to grantee, and payment of invoices. This FTE will also be the liaison with the Coordinating Board for Early Childhood in developing and implementing a tiered reimbursement system.

Oversight notes that this proposal would create a fund which shall consist of gifts, donations, bequests, transfers, and moneys appropriated by the General Assembly. Oversight assumes the fund would receive some gifts, etc, but Oversight assumes that all or virtually all of this funding would be transferred or appropriated from the General Revenue Fund.

Oversight has, for fiscal note purposes only, assumed this proposal will be appropriated and reflexed the cost without a "\$0 to" range.

Child care providers may incur costs for quality improvements in order to achieve their desired level of quality rating.

FISCAL DESCRIPTION

Section 210.205:

The proposed legislation requires the Department of Social Services, in collaboration with the Departments of Health and Senior Services, Elementary and Secondary Education, and Mental Health, to develop by September 1, 2009, a quality rating system for early childhood and before- and after-school programs that are licensed by the Department of Social Services. Licensing will be the baseline rating, with the highest rating being accreditation. The Department of Social Services must use the model developed by the University of Missouri Center for Family Policy and Research to establish the rating system. The rating system will allow an individual to evaluate and select high-quality programs, create an accountability system for policymakers and funders, and guide providers through a system of ever increasing levels of quality with specific outcomes for child care.

By July 1, 2012, the Coordinating Board for Early Childhood within the Children's Services Commission must develop a plan for a tiered rating system of reimbursement for child care subsidies based on the rating system for licensed facilities that receive funding or services to improve the quality of their program. By December 31, 2010, a proposed plan with recommendations for implementation of the reimbursement system must be submitted to the General Assembly. The plan will only become effective after authorization by the General Assembly.

The legislation creates the Quality Rating System Program Improvement Fund to be administered by the Department of Social Services to provide grants directly to licensed providers to make quality improvements to comply with the rating system or to community based organizations assisting providers with the improvements. Grants must be awarded in a geographically diverse manner. Moneys in the fund will consist of donations, gifts, transfers, bequests, and appropriations from the General Assembly. The Department of Social Services, in collaboration with the Departments of Health and Senior Services, Mental Health, and Elementary and Secondary Education, will be responsible for collecting, developing, and distributing resource materials to educate the public and early childhood and before- and after-school programs in Missouri about the quality rating system and posting the ratings on the Missouri Child Care Resource and Referral Network web site by December 31, 2012.

The provisions regarding the child care quality rating system will expire six years from the effective date.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
