FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Social Services - Children's Division** do not anticipate this proposed legislation will result in fiscal or programmatic impact.

Officials from the **Department of Elementary and Secondary Education (DESE)** state this proposal does not appear to impact the school foundation formula; however, the additional assistance and monitoring assigned to DESE will require .5 FTE supervisor.

DESE defers to the local school districts regarding costs to implement this proposal.

DESE assumes portions of the proposal appear to be a mandate in accordance with IDEA, 20 U.S.C.A. Section 1400 et seq.; Section 504 of the Rehabilitation Act, 29 U.S.C.A. Section 794; and Title II of the Americans with Disabilities Act, 42 U.S.C.A. Sections 12131-12165.

Oversight assumes procedures would already be in place in school districts regarding enrollment and placement of foster care children. If it is determined that additional oversight is needed, DESE may request additional personnel through the budgetary process.

Officials from the **St Louis Public School District (SLPS)** do not see an additional cost to this proposed legislation specific to the processing of transition component. Staff should follow up immediately on students and the process is already in place for this to happen. SLPS assumes this proposal just places a focus in this area (foster care). SLPS does not see new additional costs specific to most general education classes or programs. Additional resources could be needed if a particular specialized (unique stand-alone) general education class at the maximum class size and a new student joins the class.

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
