FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue**, **Office of the State Public Defender** and the **Department of Public Safety - Missouri Highway Patrol** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Department of Social Services - Family Services Division (FSD)** state their child support program expects minimal impact to support collections as a result of this bill. Therefore, FSD's fiscal impact is zero.

Officials from the **Office of the State Courts Administrator (CTS)** state the proposal would allow for the expungement of criminal nonsupport convictions if a period of eight years has passed, the individual has successfully completed probation, paid off all arrearages and has no other criminal charges pending.

CTS states in FY 2011, there were 4,276 criminal nonsupport convictions. This proposal should not have a significant impact on the judiciary.

Officials from the **Department of Corrections (DOC)** state penalty provisions, the component of the bill to have potential fiscal impact for DOC, is for up to a class D felony. Currently, the DOC cannot predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase of direct offender costs either through incarceration (FY11 average of \$16.878 per offender, per day, or an annual cost of \$6,160 per inmate) or through supervision provided by the Board of Probation and Parole (FY11 average of \$5.03 per offender, per day or an annual cost of \$1,836 per offender).

The following factors contribute to DOC's minimal assumption:

- DOC assumes the narrow scope of the crime will not encompass a large number of offenders;
- The low felony status of the crime enhances the possibility of plea-bargaining or imposition of a probation sentence;

ASSUMPTION (continued)

- The probability exists that offenders would be charged with a similar but more serious offense or that sentences may run concurrent to one another.

In summary, supervision by the DOC through probation or incarceration would result in some additional costs, but it is assumed the impact would be \$0 or a minimal amount that could be absorbed within existing resources.

Officials from the **Office of Prosecution Services** and **Attorney General's Office** did not respond to our request for fiscal impact.
