FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of Administration - Budget and Planning** assume this proposal authorizes the Department of Economic Development to issue grants up to \$5 million per fiscal year for rural regional development, subject to appropriation. This proposal would have no impact on General or Total State Revenue.

Officials at the **Department of Economic Development (DED)** assume this proposal establishes a Rural Regional Development Grant program subject to appropriation not to exceed \$5 million per fiscal year. DED's Division of Business and Community Services will develop and implement the program. Regional Planning Commissions submit applications on behalf of rural regional development groups. Grant amounts are awarded at \$150,000 per grant with only two grants awarded per region. Grants are to be matched by the rural regional development group depending on the number of years in operation. DED may promulgate rules for the program.

DED assumes an unknown negative impact to state revenues based on the amount appropriated not to exceed \$5 million. BCS assumes the need for one additional FTE and related costs to administer the program. This FTE would be an Economic Development Incentive Specialist III and would be responsible for reviewing the applications to make sure they meet the criteria of the grant program, authorizing and issuing the grant awards, and ensuring compliance with the program.

Oversight assumes DED could absorb the costs related to this proposal. If multiple bills pass which require additional FTE and duties at substantial costs, DED could request funding for additional FTE through the appropriation process.

Officials at the **Joint Committee on Administrative Rules** and the **Office of Administration - Division of Accounting** each assume there is no fiscal impact to their organization from this proposal.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the

ASSUMPTION (continued)

General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

This proposal states it is subject to appropriation by the General Assembly, with a maximum of \$5 million annually. **Oversight** will show the impact as \$0 (no money appropriated) to the maximum allowed annually.

Oversight assumes the amendment added language clarifying how the grant money could be spent. Oversight assumes this language would not have any additional fiscal impact.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill creates rural regional development grants. The total grants are not to exceed \$5 million on an annual basis. Grants may be provided to rural regional development groups that:

- (1) Track job creation and investment in a region using quantitative measures of progress toward preestablished goals;
- (2) Establish a process for enrolling commercial and industrial development sites in the region in the state-certified sites program or maintain a list of state-certified commercial and industrial development sites in the region;
- (3) Measure the skills of the region's workforce;
- (4) Provide an organizational chart demonstrating that private businesses and local governmental and educational officials are involved in the group; and
- (5) Provide documentation of the group's financial activities for the current year.

A development group must not qualify for a rural regional development grant if:

- (1) The group's region includes a county or portion of another state outside the state of Missouri; or
- (2) The group maintains an operating budget greater than \$250,000.

Grant applications must only be submitted by a regional planning commission for economic development authorities recognized by the commission as an economic development agency in the counties it represents.

Grants cannot exceed \$150,000 and no more than two grants can be awarded to any one of the 19 regions created by Chapter 251, RSMo. Grants to groups in operation for two years or more must provide or raise a \$1 match for every \$3 of state funds provided by the grant. Grants to groups in operation for less than two years must provide or raise a \$1 match for every \$1 of state funds provided by the grant.

FISCAL DESCRIPTION (continued)

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
