FISCAL ANALYSIS

ASSUMPTION

Officials from the **University of Missouri System** stated this proposal would have minimal financial impact on the University System.

Officials from **Northwest Missouri State University** assume there could be significant financial impact in terms of legal fees and human resources due to the vagueness regarding the definition of favoritism. This legislation could provide students who did not receive the grade they wanted with recourse for alleging favoritism. However, it is not possible to quantify the exact financial impact at this time.

Oversight assumes costs associated with this proposal are speculative and, for fiscal note purposes only, will assign no fiscal impact.

According to officials from the **Office of Secretary of State (SOS)**, many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to Secretary of State's office for Administrative Rules is less than \$2,500. SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal with core funding. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials from the **Department of Higher Education, Joint Committee on Administrative Rules, Missouri State University, Linn State Technical College, and Kansas City Metropolitan Community College** each assume the proposal would not fiscally impact their respective agencies and institutions.

<u>FISCAL IMPACT - State Government</u>	FY 2014 (10 Mo.)	FY 2015	FY 2016

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
