FISCAL ANALYSIS

ASSUMPTION

§ 643.640 - Air Conservation Commission Emission Standards:

Officials from the **Department of Natural Resources (DNR)** state it is not clear what the fiscal impact of this proposal would be. If the proposal is enacted and a conflict with federal law occurs, the proposal could impact the department's ability to develop an EPA-approved 111(d) plan by the deadline of June 2016. This proposal has the potential of putting Missouri under a federal plan.

DNR would not anticipate a direct fiscal impact from this proposal.

Oversight assumes this proposal has the potential of placing Missouri under a federal plan, meaning each affected source of carbon dioxide would be inspected by and answer to, the Federal Environmental Protection Agency (EPA).

Under a federal EPA plan, **Oversight** assumes DNR would not be involved with inspections of existing carbon dioxide sources.

Oversight assumes any fiscal impact from this proposal to DNR would be indirect and will not be reflected in the fiscal note.

Officials from the **Department of Economic Development**, the **Department of Health and Senior Services**, and the **Missouri State Highway Patrol** each assume the proposal would not fiscally impact their agencies.

FISCAL IMPACT - Small Business

FISCAL DESCRIPTION
