FISCAL ANALYSIS

ASSUMPTION

Officials of the **Department of Elementary and Secondary Education**, the **Department of Transportation**, the **Department of Social Services**, the **Department of Health**, the **Department of Mental Health**, the **Department of Revenue**, the **Department of Insurance**, the **Office of the State Auditor**, and **Office of the Treasurer** stated, in responses to this or to similar proposals, that the proposed amendment would have no direct fiscal impact on their agencies.

Estimates of amounts Missouri will receive from the Master Settlement Agreement are ranged from estimates made by the Office of Administration - Division of Budget and Planning to estimates published by the National Governors Association (NGA).

Budget and Planning's estimates assume upward inflation adjustments of three percent (3%) to each years annual payment and downward volume adjustments of 10% in 2000, 12.7% in 2001, 14.9% in 2002, and 16.6% in 2003. These volume adjustment assumptions are those recommended by Federal Funds Information for States and are based on estimates developed by Standard and Poors.

The NGA figures do not include any offsets, reductions or adjustments; therefore, Oversight has included a 3% per year inflation adjustment.

For purposes of simplifying the fiscal note, **Oversight** has used the estimates of the Office of Budget and Planning. Please see the attachment for complete schedules of ranges of estimates.

Oversight assumes that in the absence of this proposal, settlement monies would go into the General Revenue Fund.

Advertisement costs for the proposal would be \$4,380 per newspaper column inch for three publications of the text of the proposal, the introduction, title, fiscal note summary, and affidavit. The proposal would be on the ballot for the November 2000 general election.

DESCRIPTION (continued)

3) twenty percent (20%) would be deposited into the "Emergency Budget Reserve Fund" and could be used for any state emergency and for any natural disaster, upon two-thirds vote of each chamber of the legislature.

The proposal also provides the ballot title and the fiscal note summaries which would be printed on the ballots at the election addressing the proposal.

This legislation is not federally mandated, would not duplicate any other program, would not require additional capital improvements or rental space. The proposal would not affect Total State Revenues.
