FISCAL ANALYSIS

ASSUMPTION

Officials from the **City of Kirksville** state this proposal would allow the city to use sales tax proceeds to fund the local portion of a city-state highway improvement project. The City of Kirksville estimated a 1/2% sales tax will generate \$1,100,000 in the current fiscal year and forecast a growth rate of 2%. They also estimate election costs to the City of \$6,000.

Officials from the **State Treasurer's Office**, the **Department of Economic Development**, and the **Department of Transportation** assume this proposal will have no fiscal impact on their respective agencies.

The **Department of Revenue (DOR)** state this proposal authorizes an economic development sales tax for funding a transportation corporation in Kirksville. The DOR assume this proposal will not cause an administrative fiscal impact to their agency.

Oversight assumes this proposal is permissive and would have no state impact unless voter approval occurred. For purposes of the fiscal note, Oversight estimated the possible revenues in a range of such proposal not being passed by voters, to a full one cent sales tax being passed by the voters in October, 2000. Oversight assumed the earliest possible effective date of such a sales tax would be April, 2001, with one month collection lag, therefore only two months of revenue are estimated for FY 2001.
