FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue (DOR)** state this legislation restores the full deductibility of federal income taxes for corporate taxpayers beginning January 1, 2001.

The corporate tax system (COINS) will need modifications to add error and notice messages and to change the forms and reports produced. DOR anticipates these modifications will take 87 hours of contract labor, at a cost of \$2,902. However, because the costs are minimal, DOR will absorb the costs for this project. Therefore, there is little or no administrative impact to the Department of Revenue.

Officials of the **Office of Administration (COA) - Budget and Planning (BAP)** state this proposal restores the full federal income tax (FIT) deduction for corporations. The corporate income tax loss due to this proposal would be (\$24.5 million) for FY 2002, (\$24.8 million) in FY 2003 and (\$25 million) for FY 2004. These estimates are from the FY01 Consensus Revenue Forecast and Budget & Planning's Corporate Income Tax Simulator. One percent annual growth is assumed. The revenue reductions from this proposal will require an equivalent amount of general revenue in order to fully fund the Foundation Formula.

Oversight will reflect the impact of this proposal as a loss to local school districts.

This proposal would result in a decrease in Total State Revenues.

FISCAL IMPACT - Small Business

This legislation may result in a small reduction in Missouri income taxes.

DESCRIPTION

This bill authorizes a 100% state income tax deduction for federal income taxes paid by corporations. Under current law, corporations are allowed to deduct 50% of the federal income tax they paid.

The bill will apply to tax year 2001 and thereafter.

DESCRIPTION (continued)

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
